**DETAILED ACTION**

***Response to Amendment***

1. Applicant's amended claims and arguments with respect to claims 1-20 filed 11/1/2005 have been fully considered and they are persuasive.

***Examiner's Statement of Reasons for Allowance***

1. Claims 1-20 are allowable over the prior of records.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Regarding claim 1, the allowability, at least in part, resides in a computer fan efficiency feedback method, fails to teach in part the steps of modulating speed of a fan in said cooling system in accordance with a fan speed efficiency control plan, wherein said fan speed efficiency control plan sets guidelines for modulating a fan speed to values that improve efficiency ratios. Regarding claim 8, the allowability, at least in part, resides in a computer fan efficiency feedback system, fails to teach in part a fan cooling system coupled to said bus, said fan cooling system for cooling said temperature of said bus, processor and memory in accordance with an optimized balance of cooling, and power consumption. Regarding claim 15, the allowability, at least in part, resides in a fan speed efficiency control plan method, fails to teach in part the steps of selecting an operation point for said fan at which fan efficiency is optimized and fan speed is minimized.
3. Claims 2-7, 9-14, and 16-20 are allowed for the same reasons above.

***Conclusion***
